

RECREATION & CULTURE

SOUTH SHORE BALL ASSOCIATION

We have worked on strengthening the relationship between the Village and the Ball Association. As part of that, agreements have been put in place to provide greater clarity, consistency and compliance around the use and management of our recreational facilities.

Having clear agreements and expectations in place has helped improve communication, create smoother operations and ensure everyone understands their respective roles and responsibilities.

But this has very much been a two-way effort.

The Ball Association has put in a tremendous amount of work getting the association into a better-managed position and strengthening the organization. We have seen a lot of positive changes over the past year, and we appreciate the effort and commitment that has gone into that work.

They have also been proactive in finding solutions to ensure teams have the opportunities they need. They have worked with the Town of Regina Beach and have cleaned up and have also been utilizing their ball diamond.

That kind of cooperation is exactly what we want to see with our surrounding communities.

We thank them for their continued effort, commitment and dedication to keeping youth ball strong in our community.

We also want to recognize the increased involvement of our Public Works department in supporting the ball association and maintaining our facility. They have taken on additional responsibilities for mowing and maintaining the ball diamond and surrounding areas, helping ensure the facility is ready and well maintained throughout the season.

They have also completed some important improvements to the site, including building a new fence around the picnic area and creating a barrier to prevent vehicles from accessing the area where people are gathering to help create a safer environment for players, families and spectators.
