

INTERMUNICIPAL UTILITIES COMMITTEE (IMUC)

Some of the work that the Village is required to do, we do in cooperation with other communities through Intermunicipal Utilities Committee or in short, IMUC. This is a partnership between neighbouring municipalities that share the cost & use of services & infrastructure.

Instead of having to build our own expensive facilities, we joined forces with Regina Beach, Lumsden Beach, RM Lumsden No. 189 & Kinookimaw, and then share the costs and access.

Through IMUC, we pay a fair share to help with operational and capital needs of the services and facilities in Regina Beach. In return, our residents get full access to those services, just like the residents of Regina Beach. Being a smaller municipality it makes fiscal sense to share expensive assets.

The budget for IMUC feeds into the respective budget of each of the participating municipalities.

Now we'll walk you through the specific facilities that are included in the agreement.
